

Reach Raleigh until to-morrow morning.

The pilot went out from here at 2:30 this afternoon with Editor Josephus Daniels, the News and Observer, Major G. S. Wynne and Colonel F. A. Olds, secretary of the Chamber of Commerce, on board. Later in the afternoon a dozen or more automobiles, well filled with members of the local aviation committee, left here to meet the scouts at Apex, twelve miles from this city.

They came straggling back as the night advanced, but will go again in the early morning, so determined are they that the distinguished members of the scout air staff will have a royal welcome to the North Carolina capital.

A telephone message from Sanford to-night is that the scouts were delayed at Southern Pines, so that Sanford was reached much later than expected and the officials insisted on their spending the night there. This, it was pointed out, would give opportunity for the scouts to see the fine stretch of roads from Sanford to Raleigh by daylight to-morrow morning. They are expected here now about 10 or 11 o'clock. An effort is being made by Wilson people to have the scouts change their route to-morrow from Raleigh north, so as to take in Wilson. This will hardly be done, however.

Escorted to Carson's.

[Special to The Times-Dispatch.]

PETERSBURG, Va., June 10.—The Times-Dispatch scout car, en route to Raleigh, N. C., to meet the New York Herald and Atlanta Journal pathfinders, which left Richmond at 5 o'clock this morning, arrived in Petersburg at 9:27 o'clock in good condition, and at 10 o'clock left on its trip to the North Carolina capital. The crew of The Times-Dispatch car was escorted to Carson's, fifteen miles south of Petersburg, the distance being covered in fifty minutes, by Joseph V. Seward, and W. Gordon McCabe, Jr., to meet the travelers at or near Stony Creek, escort the party to the city, and spread luncheon and refreshments in their honor at the Petersburg Club.

A party of Petersburg automobilists today carried out laborers to mend certain bad places and washouts on the Richmond and Petersburg Turnpike, which were reported by The Times-Dispatch scout crew.

Good Time to Emporia.

[Special to The Times-Dispatch.]

EMPORIA, Va., June 10.—The Times-Dispatch scout car, which left Richmond a few minutes past 5 o'clock this morning, arrived in Emporia at 2:30 this afternoon. The trip from the capital city of Virginia was made in five hours and fourteen minutes, barring stops made at Petersburg, Reams, Carson, Stony Creek and Jarroville. A hearty reception was given the party in Emporia, it being only two miles from the town, by many prominent citizens in autos.

After a stay of thirty minutes in this city the car left for North Carolina, accompanied by several local automobile enthusiasts.

Over the State Line.

[Special to The Times-Dispatch.]

ROANOKE JUNCTION, N. C., June 10.—The Times-Dispatch scout car passed the Virginia-North Carolina line at 4:28 o'clock, and passed through Roanoke Rapids, N. C., 100 miles from Richmond, at 6:15 o'clock. The car, piloted by Dr. Pierce, of Roanoke Rapids, is in fair condition, except a stretch of two miles beyond Blind's Store.

Over Fairly Good Roads.

[Special to The Times-Dispatch.]

LITTLETON, N. C., June 10.—The Times-Dispatch scout car reached Littleton at 6:40 o'clock this evening and proceeded to Henderson, where the stop will be made for the night. Eugene Johnston entertained the party at the Panacea Springs. The roads from Roanoke Rapids to Littleton are in fairly good condition.

Citizens Greet the Scout.

[Special to The Times-Dispatch.]

WARRENTON, N. C., June 10.—The Times-Dispatch scout car passed through Warrenton at 8:50 o'clock this evening. A party of representative citizens met the car. In the party were: H. F. Jones, editor of the Record; J. R. Jones, John H. Kerr, J. T. Tarwater, Carter N. Williams, W. M. Rogers and Mayor John Allen. Hon. T. R. Hicks, of Henderson, met the car here and piloted it to Henderson.

DUE HERE TO-MORROW

More Than Two Hundred Miles Away, But Race Will Be Swift.

Beating their way onward, hub-deep at times in mud, the New York Herald and the Atlanta Journal scout cars halted last night at Sanford, N. C., about thirty miles south of Raleigh, where The Times-Dispatch scout, which left Richmond at 8 o'clock yesterday morning to meet them, spent the night at Henderson, having run a distance of 163 miles. Early today the neighborhood cars will leave Sanford, stopping for a short while in Raleigh, and then moving on by Henderson, where The Times-Dispatch Chalmers-Detroit will meet and pilot them to Richmond and on to Washington.

With any sort of luck the scouts ought to get into Richmond to-morrow afternoon. The Herald-Journal scouts are more than 200 miles from here, but after reaching Henderson they can make good speed.

After passing into Virginia the pathfinders will receive the same warm welcome which has been extended to them since leaving Atlanta on Monday. Petersburg will send out a string of cars, and a whole brigade of them will go from this city. It will be the biggest Sunday show this town ever had if the scouts get in during the afternoon.

"Berry's for Clothes"

In this world some swing and some push.

Here are clothes for the pushers—for summer days.

Blue serge suits, sun proof, dye proof, shrink proof, \$18 to \$25; and alternate with our new Taft grey—a suit of lightweight worsted—\$15 to \$35.

Then for variety, trousers of white serge or flannel to wear with the blue serge coat.

Straws and Panamas to wear with all of them.

Negligee Shirts that look well enough to give your coat a rest now and then.

\$1.00 up.

ternoon under favorable weather conditions.

Bulletins from the road will apprise the Richmond automobilists of the progress made, from which the hour of arrival in Petersburg and in Richmond may be definitely judged.

The routing of the country roads, The Times-Dispatch scout experienced less difficulty than was estimated, only one serious obstacle being encountered. Then the car had to return several miles, but made up the movement by running at an extra speed, the tourists covering the route occasionally at a pace of forty miles an hour. Even on good roads this speed is something out of the usual, and in a rough district it is little short of remarkable.

Extensive entertainment preparations are being made. The Petersburg Automobile Association will travel out in several cars to meet them beyond the border line of the Cockade City, and the Richmond Automobile Association will travel to Petersburg to convey the scout car into the capital city.

Going from here there will probably be from twenty-five to thirty cars in all. One of them will be a car from the Chamber of Commerce. In this will be seated W. T. Dabney of the Chamber, who will extend the welcome of the city. The Chamber of Commerce is deeply interested in the good roads movement, and will co-operate as far as possible with the Richmond Automobile Association in having the capital-to-capital route selected as the ultimate highway between Washington and Atlanta and points further south.

Should the Lincoln Highway, as suggested by the Chamber, be a factor in having the present route selected as the great intersectional highway.

All the people along the present road of travel are greatly interested in the movement, and it would be a tremendous factor in having the present route selected as the great intersectional highway.

tional platform, and taking a long step toward the dissolution of the party.

Speaking of the Senators who have gone back on the Democratic platform, he said yesterday:

"Having served on the Committee on Resolutions in the Democratic National Convention at Denver last year with Senator Simmons, of North Carolina; Senator Daniel, of Virginia, and Senator Newlands, of Nevada, I was not surprised to see them lining up on this great question with the Republicans in the Senate, as they have led the light in the Committee on Resolutions against the tariff reform plank which we adopted.

There is consequently no excuse for any man who pretends to be a Democrat to cast his vote against free wood pulp, print paper, lumber, timber and logs, all of which articles are of prime necessity in everyday life."

Negro Driver Hurt.

Emanuel Taylor, a colored driver, was thrown from a car when it was struck by a Broad Street yesterday afternoon and very badly hurt. He suffered internal injuries, and was taken to the City Hospital, where it was said last night he may die. He was attended by Dr. Cosby, of the City Ambulance Corps.

Whistle Disturbs Citizens.

Much complaint has recently been made by many citizens against the continued blowing of a whistle, which has been heard at intervals of two or three minutes, and lasts sometimes two hours or more. Just about bedtime every night the citizens begin to hear the whistle, which has not been heard before. It is located in the neighborhood of Fulton Street.

It is certainly not in this city. Some time ago the matter was called attention to through the press, but since then it has kept being heard, and is disturbing the peace and sleep of many. The Old Guard has no complaint to make, as its members never go to bed until long after the whistle has been heard.

Mr. McCullough Hurt.

Henry W. McCullough, of this city, was the victim of a rather severe accident yesterday morning at the Cardwell Machine Shop in Richmond, when he was caught in a revolving machine, which was turning at a high speed. The accident occurred while he was working on a machine, and after the wound had been dressed he was taken to his home, where he is now recovering.

On Watch for Watson.

The police department of this city were recently notified by doggers sent out from Green Sea, S. C., to keep on the watch for a man named Watson, who had been reported as a well-known citizen of that place, who had been reported as a well-known citizen of that place, who had been reported as a well-known citizen of that place.

News of Manchester

Manchester Bureau, Times-Dispatch.
No. 1102 Hull Street.

The Manchester Committee on Consolidation is determined that the Richmond committee, appointed to look into the same matter, shall not know what it intends to do. That seemed to be the opinion of the committee, which met last night, and upon the appearance of a newspaper reporter, requested that he keep everything that was said out of the papers. Mr. Brown said out in open meeting, the committee had to go into executive session at the last meeting on account of a report that the committee had been rather than make the committee go into executive session, especially in view of the fact that, besides the City Attorney, who had a perfect right on the floor, there were only about two citizens present. These seemed to be very comfortably seated, and no executive session was called.

Republican Committee Meets.

At the Manchester Republican City Committee held in the courthouse last night, it was decided to call the mass-meeting of Republicans for the purpose of electing delegates to the State convention to be held in Newport News on July 25. Two delegates and one alternate will be elected. The mass-meeting, which will be held in the courthouse on the night of June 28, at this meeting the delegates to the convention will be elected. The time and place for the election of delegates will be announced. Prominent Republicans are pleased at the outlook for the party, and say that the chances for the party are better than ever before.

DR. WIGGINS DEAD.

Vice-Chancellor of Sewanee Passes Away Suddenly.

The sad news has been received in this city of the sudden death of Vice-Chancellor Benjamin Lawton Wiggins, D. D., of the University of the South, which occurred last Monday afternoon at his home, in Norfolk, Va. Dr. Wiggins, who had been in the city for some time, his condition was not regarded as serious, and his death, which was due to heart failure, was a great shock to all who knew him.

At the time of his death the board of trustees of the university, in annual session just across the street in the university buildings, ignorant of his death, conferred the degrees of this year, at the request of the board of trustees.

Dr. Wiggins, while comparatively a young man, being only forty-eight years old at the time of his death, had been in the city for some time.

Victrola \$200

de Gogorza listening to his own voice on the Victrola

The first and only instrument of its kind.

A handsome cabinet to outward appearances, graceful in design and beautiful in its simplicity. But what a world of melody it gives forth! And what a wonderfully pure and mellow tone! Never before were the great masterpieces of music—all the splendid Victor music—played so sweetly and perfectly.

"Where does the music come from?" you ask. Beneath the lid of the Victrola is a turntable on which the Victor Record is placed. From there the tone-waves are carried through the tapering arm down to the sounding board surface which amplifies and reflects them. And the melody floats out from behind the small doors which can be regulated to make the music loud or soft at will.

This then is the Victrola—the most wonderful of all musical instruments. But you can't know how wonderful it really is until you hear it, for the Victrola has a tone-quality such as was never known in any musical instrument.

Hear the Victrola today at the nearest Victor dealer's—he will gladly play it for you. Look for the Victor Dog on the inside of the lid.

Write to us for complete catalogues of the Victor—\$10, \$25, \$35, \$50, \$60, \$75, \$100, and of 3000 Victor Records.
